## New SKF rolling bearings catalogue available

Gothenburg, 18 April, 2013: SKF releases the English version of the new SKF rolling bearings catalogue. The hard bound book, (Pub No.: 10 000) which contains more than 1300 pages, covers all standard SKF rolling bearings. The new catalogue replaces the SKF General catalogue (Publication number 6000).

An interactive PDF version of the new catalogue is available at [SKF.com/bearings](http://SKF.com/bearings).

The main content updates compared to the previous catalogue include the addition of Y-bearings and needle roller bearings as well as the following featured products:

- SKF Energy Efficient (E2) bearings
- High-capacity cylindrical roller bearings
- SKF DryLube bearings
- Polymer ball bearings
- Y-bearings (insert bearings) with SKF ConCentra locking technology
- Grease life calculation for capped (sealed and shielded) deep groove ball bearings and Y-bearings

### Extended assortment

The assortment of capped bearings, SKF Explorer bearings, electrically insulated bearings and hybrid bearings has been extended.

### New features

The new catalogue was redesigned for ease of use. Tables of contents have been expanded, product tables are numbered and a comprehensive index has been added at the back.

### Other languages

Announcements will be made as additional language versions become available.

Aktiebolaget SKF  
(publ)
