

SKF Anti Corrosive Agent LHRP 2

SKF LHRP 2 provides excellent long-term corrosion protection to ferrous and non-ferrous surfaces. When applied, it creates a stable rust protection film on the surface of the metal.

- Effective rust protection, even in high humidity environments.
- The thixotropic, non dripping, nature creates a stable protective film.
- The residual films can be easily cleaned by slight mechanical agitation or heat.
- Does not adhere to most packaging papers.
- Most bearings do not need to be cleaned before applying SKF grease.*

* Note: Film needs to be removed before applying SKF LGRE 2 grease.

Technical data

Designation	LHRP 2/5
Specific gravity	0,835
Colour	Hazy brown
Base oil type	Mineral
Flash point	>62 °C (>144 °F)
Pour point	<4 °C (<39 °F)
Available pack sizes	5 l can
