

The Power of Knowledge Engineering

Combining products, people, and application-specific knowledge, SKF delivers innovative solutions to equipment manufacturers and production facilities in every major industry worldwide. Having expertise in multiple competence areas supports SKF Life Cycle Management, a proven approach to improving equipment reliability, optimizing operational and energy efficiency and reducing total cost of ownership.

These competence areas include bearings and units, seals, lubrication systems, mechatronics, and a wide range of services, from 3-D computer modelling to cloud-based condition monitoring and asset management services.

SKF's global footprint provides SKF customers with uniform quality standards and worldwide product availability. Our local presence provides direct access to the experience, knowledge and ingenuity of SKF people.

SKF Product Support Plan (PSP)

SKF Microlog Analyzer

SKF Product Support Plan

SKF is committed to customer support excellence. The goal of a SKF Product Support Plan (PSP) is to help you increase and optimize your return on investment in SKF products. This includes extending the life of their product and facilitating the success of their program. This allows you to compete in your industry, save downtime and be on the cutting edge of technology.

SKF Product Support Plans give you full confidence that your equipment is maintained to the SKF quality standards. Condition monitoring products are an investment and there is no better way to protect your investment for years than with a SKF Product Support Plan.

SKF Technical Support Self-Help Portal access

The SKF Technical Support Self-Help Portal is a knowledgebase containing hundreds of in-depth technical support articles, frequently asked questions (FAQ), training videos, product user manuals, application notes and more. This portal has also been formatted for certain mobile devices for convenient, on-the-go access to self-help material. Simply visit the site from your [Android or Apple mobile device](#). SKF Product Support Plan holders can request personal login credentials by visiting the portal home page at www.skf.com/cm/tsg and clicking on the 'Register here' link.

Live webinar training notifications

Manufacturers today are under tremendous pressure to provide the highest possible quality at the lowest possible cost. Therefore, achieving maximum machine reliability is critical. The profitability of all manufacturers is reliant on the skills of its personnel and how employers and industry support these personnel to fulfil their potential.

Customers will receive email notifications on training Webinars that are coming out that they may attend. Webinars provide educational training on general condition monitoring and SKF products.

Benefits description – SKF Microlog Analyzer

Unlimited telephone technical support

Receive unlimited technical support from SKF Condition Monitoring personnel via telephone.

- **Within USA, Canada, and Mexico**
Monday through Friday, 5:00 AM to 4:00 PM PST
Call +1 (800) 523-7514 (toll-free USA), or +1 (858) 496-3627
- **Within Europe, Middle East, Africa**
Monday through Friday, 8:00 AM to 4:00 PM CET
Call +46 31 337 65 00
- **Within Latin America**
Monday through Friday, 8:00 AM to 4:00 PM BRT
Call +55 11 4619 9230
- **Within Asia Pacific**
Contact your local SKF sales office, or visit www.skf.com

E-mail/web-based technical support

Receive unlimited technical support by e-mail at TSG-CMC@skf.com, and through automated support using the tool provided in the self-help web portal at www.skf.com/cm/tsg.

Live chat technical support

Keep technical support at your fingertips by having access to a live, on-line chat tool provided only in the self-help web portal at www.skf.com/cm/tsg.

Firmware maintenance releases and updates

These new additions to the firmware provide enhancements and / or new functionality and are identified by a new version number. Firmware upgrades include improvements in stability and performance, and keep your SKF products current. Based on hardware systems compatibility, firmware upgrades may not be available for some products. You will be notified proactively by e-mail when an upgrade is available for download on our website at www.skf.com/cm/updates.

Hardware repairs, modifications, and proactive maintenance

All labor and material costs for SKF to repair your equipment are covered by your SKF Product Support Plan (except in case of abnormal use). Accessories are not included in the SKF Product Support Plan.

To return a product for repair or calibration, it is necessary to request a Return Authorization (RA) number first. To request a Return Authorization number, which is to be included in your product shipment to SKF, contact your local SKF Office in your country. For USA, complete the on-line request form on our website or contact us via e-mail at CoMoRA-USA@skf.com. For further information about sending your product in for repair, please refer to the [Product Repairs](#) section on our website.

Repair Depots for the SKF Micrologs

- Condition Monitoring Center (CMC) San Diego – Factory
– North America, Canada, Mexico, some South America, South Africa, some India and some Asia Pacific
- Condition Monitoring Center (CMC) Livingston – United Kingdom
– Europe, Middle East, Africa
- SKF Malaysia Repair Center
– Asia Pacific
- SKF India Repair Center
- SKF Argentina Repair Center
- SKF Brazil Repair Center
- SKF Colombia Repair Center

Benefits description – SKF Microlog Analyzer

Unlimited calibration

Product calibration is available as frequently as your company requires certification to meet your ISO compliance standards for equipment maintenance. SKF can also provide “before and after” readings in accordance with ISO 10012:2003 upon request.

Annual Preventive Maintenance (APM) service

Ensure the reliability of your data collection and assist in extending the life of your product. Includes a full system functionality check and shaker test, 69 point Automatic Test Equipment (ATE) test, route verification, replacement of damaged connectors, and battery replacement*. All contacts will be cleaned and repaired, keypad cleaned and repaired, pop-out lens polished or replaced, ISO calibration. Calibration readings before and after maintenance are also taken in accordance with ISO 10012:2003.

* Batteries for legacy products are available only while supplies last (maximum one battery per year).

Go green! When you fill out the Return Authorization request form for an Annual Preventive Maintenance service, you will be asked if you want your battery replaced now, and whether you want us to recycle your old battery or send it back to you!

Hardware loaner units

A similar type or “like-kind” product will be provided, upon request, on a temporary basis while your product is at a certified repair depot.

Courier return shipping after repair or maintenance

Your product will be returned to you via Priority Air shipping at no charge.

NOTE: International shipping does not include Duties or Taxes.

SKF Knowledge Centre subscription

This on-line knowledge portal provides engineers, operators, and managers with asset maintenance and reliability expertise. Hundreds of white papers, interactive services, tutorials and more are available 24 hours a day. Subscribers can also take advantage of web-based [SKF E-learning training courses](#). SKF Product Support Plan holders will be given a promo code to activate the subscription. After registering with SKF.com, simply click on the link that will be provided in an e-mail and enter your promo code upon checkout. For more information about what the SKF Knowledge Centre has to offer, go to [Knowledge Centre](#).
