

Mechanical tools

For mounting and dismounting bearings

The Power of Knowledge Engineering

Mounting

SKF Bearing Fitting Tool Kit TMFT series
Helps prevent premature bearing failures

- The TMFT 36 facilitates the mounting of different bearings with bore diameters from 10–55 mm
- The TMFT 24 facilitates the mounting of different bearings with bore diameters from 15–45 mm
- Facilitates correct mounting on shaft, housing and blind applications
- The diameter of the impact ring precisely fits the inner and outer diameter of the bearing
- Impact rings and sleeves are made of high impact resistant material for longevity

Spanners and sockets

SKF Hook Spanners HN series
Exact spanner radius reduces the risk of nut damage

SKF Adjustable Hook Spanners HNA series
Four sizes for tightening or loosening up to 24 nut sizes

SKF Hook Spanners HN ../SNL series
Easy and quick bearing mounting and dismounting in SNL housings

SKF Bearing Lock Nut Spanner TMHN 7 series
For achieving the correct radial clearance

SKF Impact Spanners TMFN series
High impact forces without nut damage

SKF Axial Lock Nut Sockets TMFS series
Easy mounting and dismounting without nut damage

Mounting

Dismounting

Dismounting

SKF Combi Kit TMMK series
Multi-purpose kits for quick and easy mounting and dismounting

Dismounting

SKF EasyPull – TMMA series

Equipped with spring-operated arms and a solid design, the patented SKF EasyPull is one of the most user-friendly and safe tools on the market

SKF Standard Jaw Pullers TMMP series

Versatile two and three arm mechanical pullers

The SKF Reversible Jaw Pullers can also be supplied as three different sets, complete with a workshop stand.

SKF Reversible Jaw Puller TMMR F series

Combined internal and external puller

SKF Heavy Duty Jaw Pullers TMMP & TMHP series

High forces can be easily applied as the puller is self-centring

Hydraulic and strong back pullers

SKF Hydraulic Jaw Puller Kit TMHP 10E

Effortless bearing dismounting up to 100 kN

SKF Hydraulic Puller Kit TMHC 110E

Powerful combination of a jaw and strong back puller

SKF Strong Back Pullers TMBS E series

Easy bearing dismounting even in the tightest spaces

Internal pullers

SKF Internal Bearing Puller Kits TMIP series
Fast and easy bearing dismantling from housings

SKF Blind housing pullers

SKF Deep Groove Ball Bearing Puller Kit TMMD 100
Easy dismantling of bearings in blind housings

SKF Blind Housing Puller Kit TMBP 20E
Removes bearing without dismantling machinery

Accessories

SKF Tri-section Pulling Plates TMMS series
Efficient and correct dismantling

Advanced Hydraulic Spindles TMHS 75 and TMHS 100
Effortless withdrawal force generation

SKF Puller Protection Blankets TMMX series
For additional user safety during dismantling
