

SKF Product Support Plan (PSP)

Wireless Machine Condition Detector (WMCD) and Machine Condition Detector (MCD)

SKF Product Support Plan

SKF is committed to customer support excellence. The goal of a SKF Product Support Plan (PSP) is to help you increase and optimize your return on investment in SKF products. This includes extending the life of their product and facilitating the success of their program. This allows you to compete in your industry, save downtime and be on the cutting edge of technology.

SKF Product Support Plans give you full confidence that your equipment is maintained to the SKF quality standards. Condition monitoring products are an investment and there is no better way to protect your investment for years than with a SKF Product Support Plan.

Contact your local SKF sales office, or visit www.skf.com

E-mail/web-based technical support

Receive unlimited technical support by e-mail at TSG-CMC@skf.com, and through automated support using the tool provided in the self-help web portal at www.skf.com/cm/tsg.

Live chat technical support

Keep technical support at your fingertips by having access to a live, on-line chat tool provided only in the self-help web portal at www.skf.com/cm/tsg.

Firmware maintenance releases and updates

These new additions to the firmware provide enhancements and / or new functionality and are identified by a new version number. Based on hardware systems compatibility, firmware upgrades may not be available for some products. You will be notified proactively by e-mail when an upgrade is available for download on our website at www.skf.com/cm/updates.

Hardware repairs, modifications, and proactive maintenance

All labor and material costs for SKF to repair your equipment are covered by your SKF Product Support Plan (except in case of abnormal use). Accessories are not included in SKF Product Support Plan.

To return a product for repair or calibration, it is necessary to request a Return Authorization (RA) number first. To request a Return Authorization number, which is to be included in your product shipment to SKF, contact your local SKF Office in your country. For USA, complete the online request form on our website or contact us via e-mail at CoMoRA-USA@skf.com. For further information about sending your product in for repair, please refer to the [Product Repairs](#) section on our website.

Unlimited calibration

Product calibration is available as frequently as your company requires certification to meet your ISO compliance standards for equipment maintenance. We can also provide “before and after” readings in accordance with ISO 10012:2003 upon request.

Sample of regular calibration form

Sample of ISO10012:2003 form

Annual Preventive Maintenance (APM) service

Ensure the reliability of System and assist in extending the life of your product. Live webinar training notifications

Manufacturers today are under tremendous pressure to provide the highest possible quality at the lowest possible cost. Therefore, achieving maximum machine reliability is critical. The profitability of all manufacturers is reliant on the skills of its personnel and how employers and industry support these personnel to fulfill their potential.

Customers will receive email notifications on training Webinars that are coming out that they may attend. Webinars provide educational training on general condition monitoring and SKF products.
